SUMMARY

- UC Berkeley Statistics and Applied Mathematics graduate interested in strategic finance, FP&A, and business analytics. Experience in financial modeling, variance analysis, KPI reporting, and data validation, supported by Financial Accounting and Forecasting coursework.

EDUCATION

University of California, Berkeley **Aug 2023 - Aug 2025**
B.A. Statistics (Business Emphasis) & B.A. Applied Mathematics (Data Science Emphasis) **Berkeley, CA**
• **Coursework:** Financial Accounting, Forecasting, Business Analytics, Probability Theory, Mathematical Statistics.

EXPERIENCE

Crestline Risk-Transfer Deal Analysis **Jul 2026 - Aug 2026**
Financial Analysis Project (*Interactive Dashboard*) **Fremont, CA**

- Evaluated a \$1.0M quota-share deal using 4,577 policy records; calculated a 59% break-even loss ratio.
- Found 15 erroneous policy rows and missing IBNR; identified loss-ratio errors of 10-21 percentage points.
- Modeled a 68% loss ratio (65-72% range), defended the methodology, and recommended restructured terms.

BASIS Independent **Aug 2025 - Present**
Mathematics Instructor **Fremont, CA**

- Translated complex math into clear lessons; over 83% of students exceeded BASIS exam standards.
- Built ChatGPT and Claude learning workflows, improving engagement by 20%+ across two semesters.
- Developed three advanced math courses for 100+ students, coordinating curriculum and assessments.

BLCK UNICRN **Jan 2025 - May 2025**
AI & Financial Analyst Intern **Berkeley, CA**

- Analyzed conversion and engagement across 50+ accounts and 120+ contacts to identify growth drivers.
- Consolidated 20+ data inputs and analyzed budget vs. actual KPIs, saving 2 hours of weekly reporting.
- Refined GPT-4o prompts to improve accuracy of automated chatbot responses and marketing workflows.
- Authored a Business Requirements Document and workflows to align stakeholders and inform leadership.

Beats by Dre **Jun 2024 - Aug 2024**
Data & Consumer Insights Analyst Intern **Fremont, CA**

- Analyzed 500+ reviews in Python to identify purchasing drivers, product issues, and risk signals.
- Cleaned and validated review data to produce 10+ visualizations supporting targeted marketing.
- Identified customer preferences, contributing to a 15% improvement in targeted marketing.

SKILLS

- **Finance & Business Tools:** MS Office (Excel, PowerPoint, Word), Google Workspace, Power BI.
- **Excel:** Formulas, PivotTables, lookup functions, conditional formatting.
- **Financial Analysis:** Budget Variance Analysis, KPI Reporting, Forecasting, Modeling, Sensitivity Analysis.
- **Programming:** Intermediate: Python, SQL, R, LaTeX; Basic: Java, C++, MATLAB.
- **AI & Data Tools:** LLMs & Prompt Engineering (ChatGPT, Claude, Gemini), Git, CSV-based data workflows.
- **Statistical Methods:** Hypothesis Testing, Regression, ANOVA, Maximum Likelihood, Bootstrap, Model Diagnostics.
- **Additional:** U.S. Citizen; Project Management, Quality Control, Communication, Adaptability.
